

Worksheet

Choosing a degree subject

(for students without a Morrisby account)

This activity is designed to help you reflect on your degree course matches in www.theuniguide.co.uk. You will choose some subject areas from your best matches, close matches and/or unexpected matches and record your responses to the questions below.

How do I react to the description of the degree subject and course modules?

For any subject select **Read full guide** for further details of that subject. Consider whether you will enjoy studying a degree in this area. You may add responses for as many different degree subjects as you wish - note the subjects and your response below.

Am I likely to meet the entry requirements?

Read about required or useful subjects in **Entry requirements**.

What about any special requirements - can I meet these?

Read about special requirements in **Entry requirements**. Examples of special requirements for some subjects include having relevant experience or taking an entrance test.

Name:

Would I like to work in any of the areas described in Career Prospects?

Note which career areas appeal to you and why.

Note which degree subject you want to investigate further

You will use the worksheet **Investigate degree courses** in a separate lesson to help you research specific courses in your chosen subject area and to record your responses.

The degree subject I want to investigate further is:
